

June 8, 2020

Good Evening,

Thank you everyone for your support and emails to save our Confederate Monuments.

Confederate Memorial Park is still fine, however, today at the Federal Monument and Cemetery of our Ancestors, trash was thrown. (Pictures Attached)

The VA K-9 Police reported the incident and one of our members was present at CMP who reported it to local police. The VA instructed the Maryland Dept. of Transportation to clean up the trash.

We are still working on getting a permanent security system installed however it might take longer than we thought because there is no internet cable so we are told. In the meantime we will be installing some trail cameras and we have several people monitoring the park.

We ask any of our members that live close by to take a trip down CMP and just check on the park.

We will be having Gray Day's this weekend and we will be down CMP Thursday afternoon until Sunday afternoon.

Everyone is more than welcome to join us.

Thank You Again for your continued Support,

Jim and Christina Dunbar
